

InfoSafe Dual 3.5" Drive USB2.0 to SATA HD Enclosure w/USB Hub *StarTech ID: SATCASE2U2*

The SATCASE2U2 dual drive enclosure is the ideal way to consolidate your storage into a convenient, external solution. Featuring a convenient two port USB 2.0 hub to help centralize your external USB connections, this sturdy aluminum casing helps to protect your drives and valuable data from in-transit damage, while maximizing dissipation of heat that comes from normal drive operation.

As an added safety, SATCASE2U2 features an internal cooling fan to improve airflow around the drives, in turn providing an optimized operating environment for your hard disks. Designed for convenience as well as performance, the enclosure allows easy access to stored drives, featuring easy to use locking arms, which provide simplified drive removals and insertions - a definite asset in situations that require quick drive swaps or permanent replacements.

Applications and Solutions

- > Ideal for users who work with large multimedia files or databases, and need to expand external storage capacities.
- > Allows systems with limited USB 2.0 port available to expand with additional USB connected external storage or other USB devices.

Features

- > Aluminum enclosure and cooling fan improves heat dissipation and circulation
- > Data transfer rate up to 480 Mbits/sec using USB 2.0
